GasNeutral certificate

ENGIE supplies GasNeutral Verified Carbon Standard

ENGIE Energie Nederland confirms the supply of GasNeutral Verified Carbon Standard to:

CIREX bv

With GasNeutral Verified Carbon Standard (VCS) you offset your CO₂-emission by investing in Verified Emission Reduction units (VER's). VER's neutralize the negative environmental effects of your energy consumption. One VER represents 1 ton of verified CO₂-reduction. VCS VER's are issued by the VCS organisation and are the most worldwide the most common standard for CO₂-reduction.

Period of supply: January 1st 2017 until December 31st 2021

Zwolle, september 2017

ENGIE Energie Nederland N.V.
