

Green Electricity Certificate

ENGIE supplies Green Electricity

ENGIE Energie Nederland confirms the supply of 100% Green Electricity to:

CIREX CZ s.r.o

The Green Electricity is generated 100% from wind turbines. No environment-unfriendly fossil fuels are used and hardly any pollutants are produced in the generation of Green Electricity. Green Electricity is therefore sustainable.

Period of supply: January 1st 2020 until December 31st 2021

Zwolle, january 2020

ENGIE Energie Nederland N.V.

Marc Heijnis
